PERSONAL PROFILE

A dedicated and results-driven ICT professional with over three years of experience in Cybersecurity, ICT Infrastructure Support, and Systems administration. Currently serving as a Cybersecurity Officer, with a proven track record in securing systems, managing networks, and effectively responding to security incidents. Proficient in risk assessment, endpoint protection, and technical troubleshooting, with a strong commitment to professional ethics, data protection, and continuous improvement.

CAREER OBJECTIVE

To apply my skills in Cybersecurity, Network Infrastructure, and ICT Systems Support to protect and enhance the digital operations of a forward-thinking organization. I aim to contribute to secure, efficient, and compliant technology environments while continuously growing professionally in the ICT and cybersecurity fields.

TRAININGS

- Data Protection Workshop with Data Protection Authority
- Cybersecurity Intensive Training mwCERT
- Google Digital Skills Training with Centrum Learning Africa
- Cyber Security Bootcamp Graduate
Organized by Smart Africa, Scratch & Script, and Smart Africa Digital Academy

Successfully completed a comprehensive Cybersecurity Boot Camp focused on practical, hands-on learning in areas such as network security, threat detection, incident response, and data protection. The program included individual assignments, group projects, and expert-led sessions. Graduated with enhanced technical skills and a strong foundation in cybersecurity principles to support secure digital environments.

KEY ACHIEVEMENTS

- 

Cybersecurity Unit Implementation
Established the Cybersecurity Unit at the National Registration Bureau (NRB), enhancing national data protection and incident response capabilities.
- 

Policy Enforcement & Strategic Integration
Implemented robust cybersecurity policies and successfully integrated the Data Protection Authority framework into the National Registration Bureau, ensuring enhanced compliance with national data protection standards.
- 

Concise and Professional
Led the integration of the National Registration Bureau (NRB) systems with organizational processes, ensuring full compliance with the Data Protection Act.
- 

Security Assessment Success
Reduced system vulnerabilities by 30% via comprehensive assessments.
- 

Enhanced Response Efficiency
Increased incident response efficiency by 35% through streamlined processes.
- 

Staff Training Achievement
Trained 200 staff members on cybersecurity, reducing incidents by 40%.
- 

Business Growth Milestone
Founded business achieving 20% annual revenue growth since inception.

EDUCATION

	Bachelor of education in computer science University of Malawi (UNIMA)	2017 - 2022 Zomba, Malawi
	Diploma in Computer Networking Alison Courser	2023 - 2024 Online
	Malawi School Certificate of Education (MSCE) Nsaru Secondary School	2010 - 2016 Lilongwe, Malawi

PROFESSIONAL CERTIFICATION

Google Cybersecurity Professional Certificate Coursera (Google Team)	DHIS2 CERTIFICATE University of Oslo through Department Science (UNIMA)
Cybersecurity Essentials Certificate Smart Africa under Smart Africa Digital Academy and Scratch & Script team	4.Introduction to Information Technology Infrastructure Library (ITIL) ® V4 Skill up Team
Introduction to Cyber Security International Information System Security Certification Consortium (ISC2)	Google Digital Skills Certificate Google Digital Trainers
Data Analysis SkillUp	Small Business Success Strategies Unicaf University

DECLARATION

I confirm that to the best of my knowledge the information provided in my Curriculum Vitae (CV) is true and correct and can be treated as part of my contract of employ.

STRENGTHS

- 

Data Security & Protection
Safeguarding sensitive information and ensuring compliance with privacy regulations.
- 

ICT Systems Expertise
Managing, securing, and troubleshooting networks and digital systems.
- 

Analytical Problem-Solving
Assessing complex issues to identify risks and solutions.
